Phone: 1-800-887-5030 | Fax: 604-853-8749 | website: www.dieselperformance.com

PRE-INSTALLTION

A new turbocharger will not solve any of the following failures:

- Oil contamination
- Restrictive oil drain and/or oil supply
- Overspeed due to boost leaks
- Exhaust leaks due to faulty seals and/or clamps

Turbo overspeed will lead to premature turbo failure. Boost pressure can be used to estimate turbo speed. The table shows maximum allowable turbo speed at 3200RPM. A restrictive intake or a boost leak will lead to increase in turbo speed and cause an overspeed failure.

| Max Turbo Speed | Max Boost (psi) |
|-----------------|-----------------|
| 121,000 RPM | 38 |

INSTALLATION

BD 6.7L Screamer turbo is designed to a direct drop-in. Follow Chrysler instruction on removal and installation for the turbocharger on Dodge 6.7L 2007-2017.

If you have any technical difficulties, concerns, comments, or complaints, please phone our Technical Support hotline at (800) 887-5030 between 8:30am-5:00pm PST (Pacific Standard Time) Monday to Friday.
