DECKED Truck Model Name & Year - 6.5' for 8 foot	Bed Length	SKU	Color	UPC				
These SKUs are standard box DECKED systems engineered to be installed in trucks with 8' beds. These are NOT 8' long DECKED systems. With these SKUs, the DECKED system orients towards the tailgate. As a result there is a gap from the cab side bed wall to the cab side edge of the DECKED system that allows room for narrow crossover tool boxes or fuel transfer tanks.
