THE ORIGINAL IN-VEHICLE SAFE

(800) 878-1369 | www.consolevault.com

Instruction Sheet
Product SKU: 1100
Compatible Vehicle Application(s):
Ford F-150 Console Safe 2021+
Ford F-150 Lightning Console safe 2022+
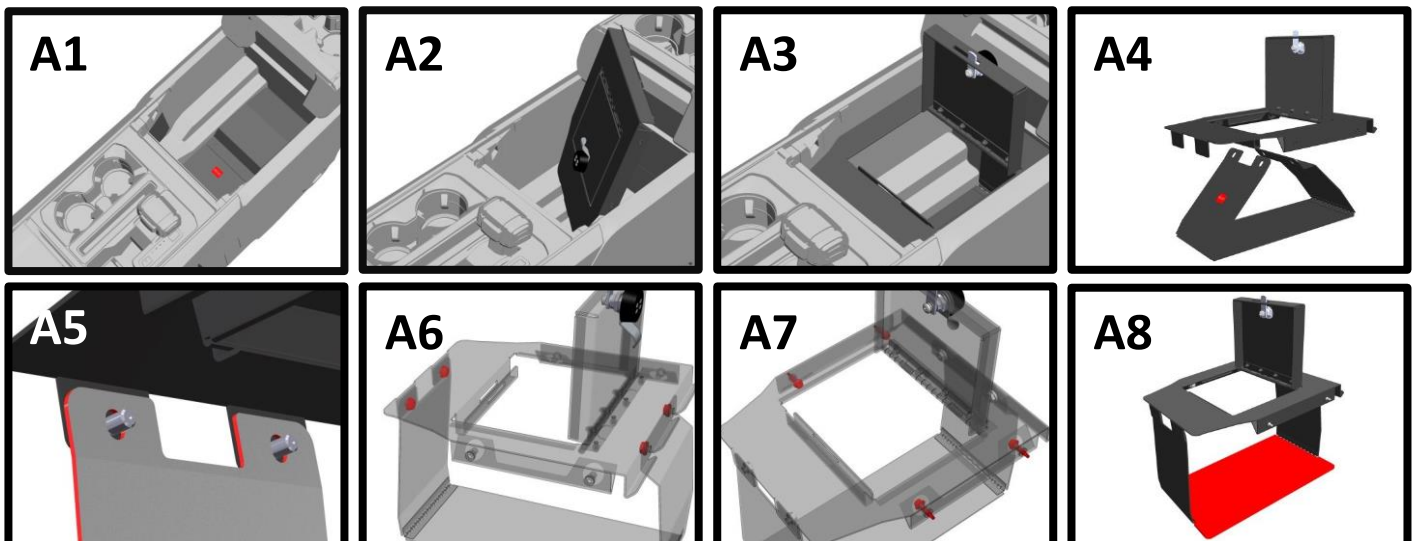

Ford
Official Licensed Product

Installation Steps:

1) Review all steps before initiating installation.

2) If applicable, reset the combination lock before beginning installation.

3) Remove all contents from the center console, including the rubber pad at the bottom.

4) Insert the **Hinge Plate** at the bottom of the console, verifying that the sticker labeled **"FRONT"** is positioned at the front of the console compartment. **(A1)**

5) Insert the **Frame Top** at a downward angle, maneuvering until fully inserted and resting at the bottom of the console. **(A2)**

6) With the **Frame Top** resting flat at the bottom of the console, open the lid and pull the **Frame Top** up, so that the front and back contact the ledges in the console. At that point, the frame top will not be able to go any higher. **(A3)**

7) While holding in this position, open the **Hinge Plate** by pivoting the front and rear sections up, making sure the studs are inserted through the slots. **(A4) & (A5)**

8) Thread a nut onto each of the 4 studs in the locations shown in red. Using a **1/2" Socket Wrench,** complete tightening while simultaneously checking that the **Frame Top** and **Hinge Plate** stay wedged in the console cavity. **(A6)**

9) Be sure that the **Top Frame** and **Hinge Plate** are firmly wedged in the console cavity. Insert and thread the 4 Self Drilling Screws by hand in the locations shown. Using a **7/16" Socket Wrench**, complete tightening until the screw heads contact the insert nuts and **STOP! (A7)** _Warning! Overtightening the screws will cause damage to the threads._

10) Insert the **Foam Pad**, and the installation is now complete. **(A8)**
