

Installation Steps:

- 1) Review all steps before initiating installation.
- 2) If applicable, reset the combination lock before beginning installation.
- 3) Verify that your vehicle is the correct generation: your console should look like the one shown in **Image 3** below. Remove any contents from the storage compartment.
- 4) Make sure the seat-lid is open fully. Orient the safe so that the lock is towards the front of the vehicle. (**Image 4**) Place the Console Vault safe inside the storage compartment. You may need gently move the seat-lid back and forth while moving the safe into the compartment.
- 5) There are two threaded fittings inside the safe on the left and right sides. Hand thread the self-drilling screws into each fitting. (**Image 5**)
- 6) Tighten each of the self-drilling screws until the screw head rests against the insert nut and **STOP! DO NOT OVER TIGHTEN**, Over tightening will damage the fitting.
- 7) The installation is now complete. (**Image 7**)
